About This Content

Antenna Dilemma's first chapter is free and this DLC is not an expansion of the game (don't expect a new achievement or a sequel).

This DLC was created for people who would like:

- to help us continue making games (like an Antenna Dilemma's sequel)
- to see more about how the game was made, to have insights about game development (first drawings, mock-ups ...)

Every file in this DLC and its description will be available only in English:

- Game screenshots from early versions of the game
- Mock-ups and handwritten notes about the game storymaking
- A document which gathers all fun facts about game inspirations, easter eggs and much more
- A dozen of original wallpapers made for this DLC

-
- Original drawings of stickers made exclusively for the game by Crazy Kraken Studio
 - How to get a special "Supporter" role into the Goloso Games Discord
 - And some other surprises...

All files will be installed in Antenna Dilemma Steam folder, which is by default:
C:\Program Files\Steam\SteamApps\common\AntennaDilemma\Extras
